

Now Sinclair Broadcasting plans to show a Kerry movie that is, by all accounts we hear, full of lies with an intention to discredit Sen. Kerry's work to end the war in Vietnam. To Sen. Kerry, we in American owe him a great debt for the lives of our husbands and children that were saved. This intended plan by Sinclair to pre-empt their regular programming and require all their stations to show this smear film is a grave disservice to our democracy and an example of the evils of media consolidation. Huge media conglomerates, since they use the public airwaves, have a responsibility to the public to be just. Sinclair Broadcasting shows that they do not deserve our trust. Renewal of their license should not be granted.
